Nutrition and Allergen Disclaimer

Nutrition Statement

The nutritional analysis is comprised of data from an independent testing facility commissioned by Chili's, combined with nutrient data from Chili's suppliers, the United States Department of Agriculture and nutrient database analysis of Chili's recipes using Genesis R&D from Trustwell. The rounding of figures is based on Food and Drug Administration guidelines. Chili's attempts to provide nutritional information regarding its products that is as complete as possible. Some menu items may not be at all restaurants; test products, test recipes, limited time offers, or regional items may not be included. While menu item ingredients information is based on standard product recipes, variations may occur due to ordinary differences inherent in the preparation of menu items, local suppliers, region of the country and season of the year. This listing is updated periodically in an attempt to reflect the current status of Chili's products.

Allergen Information

If a person in your party has a food allergy, please contact the restaurant or notify a manager before placing your order. The health and safety of our guests are always top priorities. As part of this ongoing commitment, we provide the most current allergen menu information available from our food suppliers on the most common allergens including egg, fish, milk, peanut, shellfish, sesame, soy, tree-nuts, wheat and gluten. Every effort is made to keep this information current. However, it is possible that ingredient changes and substitutions may occur due to the differences in regional suppliers, recipe revisions, preparation techniques, and/or the season of the year. Certain menu items may vary from restaurant to restaurant and may not be available at all locations. Limited time offers, test products, or regional items have not been included on these menus. **Menu items may contain or come into contact with wheat, eggs, shellfish, tree-nuts, milk and other major allergens. Because routine food preparation techniques, such as common oil frying and use of common food preparation equipment and surfaces, may allow contact among various food items, we cannot guarantee any food items to be completely allergen-free.**

Vegan and Vegetarian Items

For items suitable for lacto-ovo vegetarians please use the 'avoid meat' filter to find items that exclude both meat and seafood.
For vegan items please use the 'avoid animal product' filter. Animal products include but are not limited to meat, seafood, eggs, dairy, and animal-derived ingredients (e.g.

gelatin, chicken broth, rennet, and honey).

Soy Allergies

Many of our foods contain soybean oil and our fried items are prepared in 100% soybean oil. Under FDA regulations highly refined soybean oil is not considered allergenic and is exempt from labeling. Therefore, menu items that contain highly refined soybean oil will not be identified as containing soy on our allergen guide unless other forms of soy protein are present (e.g., hydrolyzed soy, soy flour, miso, edamame). Please check with your doctor to find out whether you should avoid highly refined soybean oil.
